

## KAMENY FOR CONGRESS

A MAN WE CAN COUNT ON ---

- ... To Educate the Public about Homosexuality. All candidates for the post of D.C. Nonvoting Delegate to Congress will be given free space in newspapers and free time on radio and TV -- space and time which the media will not even allow us to purchase!! (For example, The Washington Post will not accept a paid ad from any source which mentions the words homosexual or gay. This includes titles of organizations, meeting notices, movie ads, and theater ads.)
- ... To Show Community Strength. When Kameny is on the ballot, the D.C. political structure will learn that the gay community is a force to be reckoned with. Because of our location, national media and politicians will be compelled to pay attention to us.
- ... To Influence Other Candidates. Rational, intelligent discussion by Kameny of discrimination against gay people will pressure other candidates into educating themselves and working effectively for the homosexual community. Support for Kameny will provide a show of strength in the one commodity which no politician or public official can afford to ignore: votes!

WHAT DO WE NEED TO GET FRANK ON THE BALLOT?

WE NEED 5,000 SIGNATURES OF REGISTERED D.C. VOTERS BY FEBRUARY 15th!!

Everyone can help. Sign a petition and get someone else to sign. Urge people to register now! Get your straight friends and acquaintances to sign in the interest of personal freedom. Ask for referrals. Get on that phone. Approach everyone!

Remember: those who sign the petition are indicating only that they are registered to vote in D.C. and that they desire, or at least permit, Frank Kameny to be on the ballot. Signing does not imply support for Kameny or his views, nor does it commit your actual vote in any way.

Don't forget: Washington has never had such a chance before! By working together -- gays and straights -- we can create an impressive show of power, which will have a major political impact. Homosexuals will no longer be ignored!
